## ABOUT ME

I am a Software Engineering student at Al-Azhar University with a strong passion for web development and modern technologies. I have hands-on experience in front-end development using HTML, CSS, JavaScript, TypeScript, Bootstrap, React, Material UI, and Next.js, with a focus on building clean, responsive, and user-friendly interfaces.

Currently, I am expanding my skills in ASP.NET Core and back-end development to enhance my full-stack capabilities. I also have experience with Java, C++, Python, and C#, along with a solid understanding of relational databases (SQL), which has strengthened my problem-solving abilities and software design skills.

---

## EDUCATION

### Access Scholarship

Scholarship: Awarded the ACCESS Program scholarship by the U.S. Consulate in Jerusalem for two years to enhance English language skills.

### Alazhar University Gaza

Studying Computer Systems Engineering with a focus on Software Engineering, gaining solid knowledge in software development, system architecture, databases, and networking. Experienced in working on practical projects and applying problem-solving and analytical skills to build efficient technical solutions.

### Front-End Development Course | Knowledge Academy (8 Months)

Completed an intensive 8-month Front-End Development program at Knowledge Academy, covering HTML, CSS, JavaScript, Bootstrap, React, MUI, TypeScript, and Next.js. Developed multiple high-quality projects that enhanced my practical skills in creating responsive, scalable, and user-friendly web interfaces.

### Back-End Development Course – ASP.NET Core | Knowledge Academy

Currently enrolled in a comprehensive Back-End ASP.NET Core course at Knowledge Academy, where I am learning server-side development, API creation, authentication, database integration, and best practices for building scalable and secure web applications. The program enhances my understanding of modern back-end architectures and strengthens my full-stack development skills.

## PROJECTS

E-commerce Project || 2025

### Built with HTML, CSS, JavaScript, Bootstrap, and Swiper

Developed a responsive e-commerce website inspired by the Fynode template. Created a modern and user-friendly interface with dynamic product carousels, smooth navigation, and visually appealing UI components.

[Llve Demo](#)

Portfolio Website || 2025

### Built With React js, MUI, Framer-motion, Emailjs

Developed a personal portfolio website to showcase my skills, projects, and professional experience. Implemented a responsive design with a clean user interface, ensuring accessibility across devices. Features include project galleries, contact form, and interactive elements to demonstrate proficiency in web development technologies. This project reflects my ability to design, implement, and maintain a professional online presence.

[Live Demo](#)

Alkhatib Store|| 2025

### Built with React, Material UI (MUI), and Framer Motion

Alkhatib Store is a bilingual (Arabic & English) e-commerce platform supporting light and dark modes. Integrated with a back-end to handle payments via credit card, product management, shopping cart functionality, and smooth checkout experience. Focused on delivering a responsive, interactive, and user-friendly shopping interface.
